

PK-MRL-01 Magnet Release Lever

FOR PK-SM-2100 & PK-NM-2100

PRODUCT OVERVIEW

The **PK-MRL-01** is a purpose-built magnet release lever designed for safe and efficient disengagement of ProKast magnets. The long orange powder-coated steel shaft with ergonomic black grip and forked head allows operators to lift the magnet button cleanly without striking the magnet, protecting both the tool and the internal neodymium core.

PRODUCT VIEWS

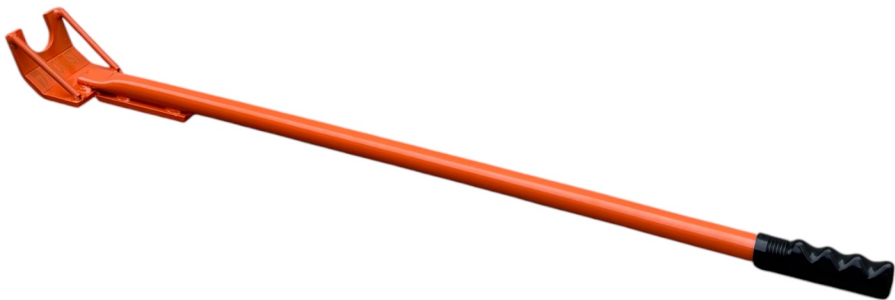

Fig. 1 | PK-MRL-01 magnet release lever - 940 mm powder-coated steel shaft with ergonomic grip and forked head.

SPECIFICATION	VALUE
Model	PK-MRL-01
Length (L)	940 mm
Weight	2.1 kg
Material	Powder-coated steel
Finish	Orange powder coat with black grip
Compatible magnets	PK-SM-2100 and PK-NM-2100

KEY FEATURES

- Specifically designed for ProKast magnets
- Long reach for comfortable operation
- Forked head for positive engagement with the magnet button
- Ergonomic black rubberised grip
- Heavy-duty powder-coated steel construction
- Durable orange finish for high visibility on site

OPERATION

- 01** Position the forked end of the lever under the magnet release button.
- 02** Apply steady downward pressure on the handle to lift the button and disengage the magnet.
- 03** Once released, remove the magnet from the casting bed or attachment.

Never strike the magnet with a hammer or use any other tool to release it.

CARE & MAINTENANCE

- Wipe clean after use to remove concrete slurry and debris.
- Inspect the forked head regularly for wear or deformation.
- Store in a dry area.
- Do not use the lever as a general pry bar or for purposes other than releasing ProKast magnets.

SAFETY INFORMATION

- Always use the correct ProKast release lever when disengaging magnets.
- Keep hands and body clear of the magnet during release.
- Ensure stable footing when applying force to the lever.
- Powerful neodymium magnets can cause injury if released uncontrollably.

WARRANTY

ProKast provides a **24-month warranty** against manufacturing defects in materials and workmanship under normal precast yard use, commencing from the date of delivery. Warranty is void if the product is damaged by misuse, modification, or use as a general pry bar. This warranty is in addition to, and does not exclude, any rights or remedies available to you under the Australian Consumer Law.

DISCLAIMER

The information in this data sheet is provided in good faith and is believed to be accurate at the date of publication. The PK-MRL-01 is a hand tool intended solely for releasing ProKast magnets and must not be used as a pry bar, lever for other equipment, or for any purpose outside that stated in this document. It is the responsibility of the user to determine the suitability of this product for the intended application, to ensure operators are trained in its correct use, and to ensure use complies with all applicable Australian Standards, WHS legislation and site-specific risk assessments. ProKast Pty Ltd accepts no liability for loss, damage or injury arising from misuse, modification, unauthorised repair or use outside the parameters stated in this document. Specifications are subject to change without notice. This document supersedes all previous revisions.
